- International tourism has continued to recover in 2024 ⁽²⁾
- Respectable RevPAR performance amid macroeconomic headwinds and normalisation of demand in some markets after a period of extraordinary post-pandemic growth
- Record high full year RevPAR achieved for 5 hotels: Hotel MyStays Asakusabashi, Hotel MyStays Kamata, Hilton Cambridge City Centre, Pullman Hotel Munich and Hotel Cerretani Firenze

SKIRT Restaurant, W Singapore – Sentosa Cove

- Decline in NPI largely reflected the continued normalisation of demand across some markets
- The Castings' NPI contribution was insufficient to cover its one-off pre-opening expenses and associated interest costs. This, together with lower overall NPI and higher interest cost for the rest of the portfolio, led to decline in distribution
- Interest cost to benefit from further interest rate declines as the rate cut cycle continues into 2025
- The inorganic contribution from three new high-quality assets — Hotel Indigo Exeter, The Castings and Benson Yard — will support earnings in 2025

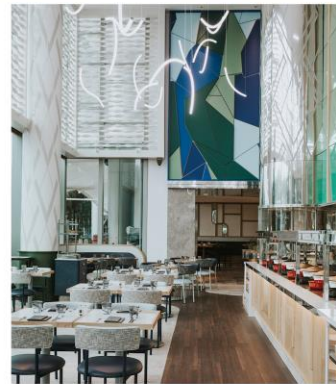

Portfolio Value as at 31 Dec 2024

- Portfolio value increased by 4.6% or S\$146.3 million YoY to S\$3.3 billion
- On a same-store basis (excluding Hotel Indigo Exeter and Benson Yard which were acquired in 4Q 2024), the portfolio value would have increased by 1.3% or S\$42.2 million YoY

- Capitalising on the recent decline in borrowing costs, CDLHT entered into five interest rate swaps totaling S\$148.0 million since 31 Dec 2024 to progressively hedge its SGD floating-rate debt
- On a pro forma basis, this will lift CDLHT's fixed rate borrowings from 32.1% to 43.1% as of 31 Dec 2024
- Low fixed to floating borrowings profile positions us well to benefit from prospective interest rate declines in the near to medium term
